Dear Abe:

That was a splendid briefing you gave the President and the rest of us this week. It was exactly right and couldn't have been better.

25X1 The name I was trying to think of to see what he could do with SDI security is He is a Deputy Director of Security at CIA and is very experienced in technical and technological security. I have asked him to call you to set up a date to see you or your designee.

Yours,

William J. Casey
